Portfolio

Dynamic BS Computer Science student with a passion for technology and a drive to make an impact. Proficient in HTML, CSS, JavaScript, and React JS, with hands-on experience in web development projects. Continuously expanding my skill set, I am currently focused on mastering the MERN stack to enhance my capabilities as a versatile web developer. Collaborative spirit within academic circles, with strong communication skills and a commitment to excellence. Actively engaged in extracurricular activities, including community education campaigns.

Skills

- HTML
- CSS
- JavaScript
- React JS [Zod & Ant design]
- Git & GitHub

- Tailwind CSS
- Mongo DB
- Node JS
- MySQL
- Next JS

Experience

05 APRIL, 2024 – 05 MAY, 2024
Web Development Intern / CodSoft, Remote

As a web developer, I created impactful projects such as a dynamic portfolio, engaging landing page, and functional calculator using HTML, CSS, and JavaScript. I also developed an e-commerce shopping website using the MERN stack.

Activities

Beyond academics, I engage in community initiatives and leadership roles, volunteering with local organizations like the traffic police. Passionate about technology, I have also earned certificates from Coursera, highlighting my dedication to ongoing learning and professional development.
